

CARS™

Mile Marker File Format

CARS allows for upload of unique mile marker data (your LRS).
With this data, the system will auto-name/associate all assets with their corridor/mile marker.
This file is not required.

Route Name	Mile Post	Longitude	Latitude	Posted Speed Limit
PA 100	4.02	-75.620831	40.333381	45
PA 100	4.03	-75.621034	40.334398	45
PA 100	4.04	-75.621163	40.335331	45
PA 100	4.05	-75.621313	40.336246	45
PA 100	4.06	-75.621463	40.337146	50
PA 100	4.07	-75.621571	40.337947	50
PA 100	4.08	-75.621678	40.338881	50

Any text string
using meaningful
naming convention
from end user

Mile posts
to the 0.01

5 decimal
places

(Optional) Statutory
speed limit at each
mile post

File must be .csv format
